

**Proceedings of the
IEEE 1986
CUSTOM INTEGRATED CIRCUITS
CONFERENCE**

**Rochester Riverside Convention Center
Genesee Plaza-Holiday Inn
Rochester, New York**

May 12-15, 1986

The CICC '86 is sponsored by the IEEE Electron Devices Society, the IEEE Rochester Section, and the IEEE Solid-State Circuits Council. Its aim is to bring together designers, producers, and users of custom IC's to discuss recent developments and future directions in custom integrated circuits.

CONTENTS

TUESDAY AFTERNOON	Holiday Inn (ABCD) Holiday Inn	PAGE
MODULE GENERATORS		329
Chairman: Jake Buurma Co-Chairman: Allan Goodman		
2:00	Parameterized Modules in Standard Cell Workstation Libraries H. C. Benz, General Electric Corp., Research Triangle Park, NC	330
2:25	CMOS RAM, ROM and PLA Generators for ASIC Applications W. P. Swartz*, H. Khan**, D. A. Thomas***, C. R. Giuffre*, M. deWit*, T. Pavay**, C. McIntosh**, W. H. Banzhaf*, Texas Instruments, Inc., Dallas, TX*, Texas Instruments Ltd., Bedford, England**, Texas Instruments, Inc., Houston, TX***	334
2:50	A Full-Automated VLSI Layout System Including the Custom Cell Compiler K. Kawauchi, Y. Hatano, J. Ishii, S. Sumi, Fujitsu Ltd., Kawasaki, Japan	339
3:15	A Multiplier-Accumulator Silicon Compiler D. Gluss, A. ElGamal, J. Greene, P-H Ang, LSI Logic Corp., Palo Alto, CA	†
3:40	Compilation Approach for Standard Cell Libraries S. Dholakia, S. Bush, A. Martinez, B. Walker, C. Asato, VLSI Technology, Inc., San Jose, CA	343
4:05	Construction and Compaction of Multi-level Logic Arrays M. Hofmann, IBM Corp., Yorktown Heights, NY	347
4:30	Multiple PLA Folding by the Method of Simulated Annealing D. F. Wong, H. W. Leong, C. L. Liu, Univ. of Illinois, Urbana, IL	351
4:55	A Spatial Reasoning Approach to Cell Layout Generation M. Alexander, Gould AMI Semiconductors, Santa Clara, CA	356

TUESDAY AFTERNOON	Mini Ballroom (EFG) Holiday Inn	PAGE
ANALOG CIRCUIT TECHNIQUES		361
Chairman: David Wayne Co-Chairman: Jagdish Tandon		
2:00	A Low-Voltage High-Resolution CMOS A/D Converter with Analog Compensation J. Robert*, G. C. Temes**, F. Krummenacher*, V. Valencic*, P. Deval*, Ecole Polytechnique Federale, Lausanne, Switzerland*, Univ. of California, Los Angeles, CA**	362

†Manuscript unavailable for publication.
